Principal: Dr Intaj Ali (T.Cert., TESL Cert., B.A.Hons., M.Ed.Admin & Superv., M.Ed.Admin., Ed.D).

About Mathletics

Mathletics is a web-based learning platform that integrates home and school learning via the internet. Mathletics covers the Prep - Year 12 Australian Maths Curriculum and is currently used in over 3,000 Australian schools, with more than a million students worldwide accessing the site every day! It is the next generation in learning, helping students to enjoy maths and improve their results.

Dear Parent / Guardian,

Assalamu alaykum wa Rahmatullah wa Barakathu

Malek Fahd Islamic School recognises the value of *Mathletics* for our students. Along with our regular traditional learning resources, we are planning to use *Mathletics* as a part of our Maths teaching programme.

The benefits of *Mathletics* are:

- students are inspired and motivated to learn
- *Mathletics* is adaptive, it responds to individual student strengths and weaknesses
- students instantly know if they are on the right track and can work through the curriculum at their own pace
- animated support guides students through concepts whenever they need, like a maths tutor might do
- teachers can monitor student records in order to track progress and identify learning needs and
- weekly parent emails allow you to monitor your child's progress.

Mathletics will be used for consolidation, homework and diagnostic purposes. Students in Years 1– 12 starting the *Mathletics* program will have 24 hour access to Mathletics by using a unique user name and password, so you may notice your child accessing the site at home. Teachers will be monitoring usage and results and we encourage parents to spend some time looking at the program so that you can gain the greatest understanding of how Mathletics will benefit your child.

For more information about *Mathletics* visit www.mathletics.com.au to view the website and see comments from parents and schools.

Wassalaam

Dr Intaj ALI
